

blaze jogo que ganha dinheiro

Blazes will spawn around the Spawner if there is a light level of 11 or lower (lower than the Spawner's light level). When you are near a Spawner, you can see the light level of the Spawner in the chat window. The light level of the Spawner is 12.

You may need a lot of fire resistance to survive for in a Swarm of blazes! See the tutorial on fire resistance.
