Asking if it is legal to play roulette online in USA isn't as straightforward as it seems. Let's explain this in a few main theses:

Even though there are multiple roulette variants, each one is the same at its core. A roulette setup consists of four main components, which are the roulette wheel, the betting table, a small ball, and a croupier. The wheel is divided into either 37 or 38 sectors depending on which version you play. These sectors are numbered 1 through 36 and then there is either a single zero slot or a single and double zero slot.

When you play roulette, the betting surface is divided into two regions. The inner area is for placing inside bets which include straight-up bets, corner bets, street bets, and more. The outer area of the betting surface is for outside bets like Odd/Even, High/Low, and Red/Black.

What's the difference between inside bets and outside bets? Well, outside bets are even-money propositions, while inside bets offer higher odds. The odds and probabilities vary from bet type to bet type. If you place a \$1 outside bet on red, and it comes up red, then you make a \$1 profit. If you successfully wager on a straight-up inside bet, then you earn a payout of 35:1. You can refer to the table below to find out about the different types of bets and the odds they offer.

A roulette game kicks off with the players placing their wagers on the betting surface. The croupier then closes the betting, spins the wheel, and then spins the ball on the wheel in the opposite direction. The wheel eventually comes to a halt, with the ball settling in one of the numbered and colored slots. That number and color determine the outcome. The croupier collects all of the lost bets and pays out the winning ones.

So, to summarize, a round of roulette goes as follows:

Players place their bets The croupier closes the betting The croupier launches the roulette wheel The ball hits one of the pockets The croupier collects the losing bets and pays out the winning bets

You can pretty much take all day to place your bets when you play an RNG roulette game. If, on the other hand, you play a live roulette game
