A key difference between Blackjack and Spanish 21 is that 10s are removed from the deck in Spanish 21. In Blackjack, when the first two cards dealt equal 22 and a combination of the face Card (Jack), Queen, King, and Ace cards add up to 21 (an Ace and the King), the player can choose to "stand" or "hit".

If you wish to "draw", you can continue to draw cards until it is your turn to "stand". You can also choose to "hit" or "stand" on your first card. If you are dealt a "blackjack" (Ace and King), you win immediately.
