How to download and install Unibet iOS App/APK  
While conducting this Unibet review we found that the company has made life easy for punters to use their sports betting service on the go. For iOS users, there are multiple ways that they can join in on the action. The easiest way is to head to the Apple App Store, search for Unibet and their sports betting app should be one of the first results on the page.

Once the native app has been downloaded users just press the icon then they can sign in or log up. For any Stan James users, they are able to log into the Unibet app using their Stan James details. Once users are logged in then sports betting is available 24/7, 365 days of the year.
