estratégia corrida de cavalo betfair

```
<p&gt;A points system is a common occurrence in betting where YOU decide how
much a point is. Tipsters will often
                                   tell you how many points they think you
should bet
            such as a 2 point win. The beauty of
                                                 this is that you decide wha
t value each point has when you begin. A lot of people start with a
                                                                100 point
base so if you had started with, as an example, £100, you would simply div
ide this by 100
                 to get the value of your point
                                               £1.00.</p&qt;
<p&gt;&lt;/p&gt;
<p&qt;How much would my bets cost?&lt;/p&qt;
<p&qt;&lt;/p&qt;
<p&gt;A brief explanation is laid out in
                                       the table below. The purpose is t
o show how much, in total, your outlay would be if you were using
                                                                &#163:10 st
akes, for example, on a bet.</p&gt;
<p&gt;&lt;/p&gt;
<p&gt;Stake &#163;5 points &#163;10 points &#163;20 points 0.5 points &#163;2
.50 £5.00 £10.00 0.5 points
                                       each way £5.00 £10.00 £2
0.00 1 point £5.00 £10.00 £20.00 1 point each way £10.00 &#1
63;20.00 £40.00 2 points £10.00
                                            £20.00 £40.00 2 points ea
ch way £20.00 £40.00 £80.00</p&gt;
<p&gt;&lt;/p&gt;
<p&qt;It is imperative that you decide how many points you will use
                                                                  before
you start betting if you decide to use a points system. By changing your point
value half way through
                        the month will hugely distort your profit/loss as you
could win, say, 10 bets whilst using £0.50 points. If you
                                                           then lose 10 b
ets with £2.50 points you will ultimately not be in profit for that month.&
It:/p&qt;
<p&gt;&lt;/p&gt;
<p&gt;We would recommend that
                                   nce your betting bank increases by 50% of th
e starting points, you increase your point value by 50%.</p&gt;
<p&gt;&lt;/p&gt;
<p&gt;Example&lt;/p&gt;
<p&gt;&lt;/p&gt;
<p&gt;Once your 100
                        point bank becomes 150 points, you increase your point
value by 50%, so £5 becomes £7.50, £10 becomes £15 and
o on.</p&gt;
<p&qt;&lt;/p&qt;
<p&gt;Depending on the tipster that you follow (if any) examples of bets that
you may see are outlined below:</p&qt;
<p&gt;&lt;/p&gt;
<p&gt;KAUTO
                 STAR
                         GOLD CUP 6/1
                                         1 POINT WIN&It;/p>
<p&gt;&lt;/p&gt;
<p&gt;lf you were using &#163;10 per point you would place &#163;10 win.&lt;/
<p&gt;&lt;/p&gt;
<p&gt;&#163;20
                    per point £20 win.</p&gt;
```

<p></p>
