Casinos typically pay winning bets of less than \$25,000 by cash or check. They may also pay larger winners either as a lump sum or as an annuity. Some casinos allow you to choose how to receive your winnings: PlayStation Payout or Annuities. Payment methods for winners include: selling payments to a casino or short-term cash; the usual way is to cash out a small amount say 5K.

Most casinos have a default payment method. Most casinos have a little problem
