Plinko is a popular game on the television game show "The Price Is Right." In the game, contestants drop chips down a pegged board, and the chips randomly land in different slots at the bottom. The game does pay out, as a contestant can win varying amounts of money depending on where their chips land. Does Plinko really pay in?

- Quora

gest amount of money ever won at Plinko is \$39,200 [4] To maintain consistency, there are only ten Plinko chips, and they are locked up after each use [2] So, You Want to Win?
