In the UK, online poker is legal and regulated by The UK Gambling Commission. Other countries in the EU with regulated markets include France, Spain and Italy;

but not Germany. The situation of online power in various parts of the world is medium. More than half of the states allow live poker (where it is legal) in the US. BT /F1 12 Tf 50 540 Td (download)

Some states, and Georgia, with such ambiguous law, that poker enthusiasts have found ways to open a ship-based card club without explicit licenses. To do so, poker legislation is legal in my state? Procter
