<p>A variation of traditional poker, Ultimate Poker offers a new way to pl ay. The</p> &It;p> participants, up to 7 of them 🎅 at the Table, will not be pla ying against each other but</p> <p> instead trying to beat the Bank, in the person 🎅 of the Croup ier. Before the cards are</p> <p> dealt, you must place your chips on the squares marked Bet (Ante) fo r 🎅 an initial bet</p> <p> and Blind for a blind bet of the same amount. From then on, these wa gers can no</p> <p> 🎅 longer be removed or changed. So make sure you think them t hrough carefully from the</p> <p&qt; beginning. It is also possible 🎅 to make an optional bet on t Bonus square.</p&qt; he <p>- The</p> <p> Croupier then deals 2 cards to each player, ending with 🎅 him or herself, and places 5</p> <p> community cards on the table, all face down. However, if the Croupier uses an 🎅 automatic</p> <p> card dealing machine, the dealing order changes: first the 5 community cards, then the</p&qt; <p> 2 cards for each player 🎅 and finally the Bank s 2 cards.< /p&at: <p>- The players can then check </p> <p> (do nothing) or bet an amount equal to 3 🎅 or 4 times their i Ante bet.</p> nitial <p>- The</p> <p&qt; Croupier then turns over 3 community cards, and this time, if you  7877; did not wager in the</p> <p> previous round, you can only bet double the amount of your Ante.</p > <p&qt;- The Croupier then</p> <p> 🎅 turns over the final 2 cards. If you have still not made a bet on the Play square, your</p&qt; <p&qt; wager 🎅 cannot exceed the value of your Ante. If you decide t o fold, you lose your</p> <p&qt; stakes.</p&qt; &It;p&qt;- Finally, the Croupier turns 🎅 over his or her cards and the players still in</p&qt; <p> contention compare their hands to the Bank s. The best hand 🎅 wins the game. .</p> <p></p> Autor: jamescall.com
