<p&gt;The under the gun position in poker is the player in the earliest posit
ion, the one required to act first. 6, £ It is abbreviated as UTG.</p&gt;
<p&gt;In games with blinds, such as Texas Hold&#39;em or Omaha, it is the pla
yer seated just 6, £ to the left of the big blind. The under the gun player must
act first pre-flop in a game with 6, £ blinds. After the flop, the under the gu
n player is then the third to act, after the small blind and 6, £ big blind.<
/p>
<p&gt;UTG is also used as a shorthand for the other early positions, with UTG
+1 being the next player to 6, £ the left of the under the gun position, UTG+2 t
he second player to the left, and UTG+3 the third player 6, £ to the left.</p
&qt;
<p&gt;Disadvantages of the Under the Gun Position&lt;/p&gt;
<p&gt;The term under the gun implies that you are under pressure, and 6,
at is true for this position. Everyone is awaiting your play before the flop and
you don't know what the 6, £ others are planning to do.</p&gt;
&It;p>Pre-flop, all of the players at the table will have the option to call,
raise, or 6, £ fold after the UTG position. When you are in this position, you
have no information about the strength of the 6, £ hands of the other players. Y
ou don't know whether any of the other players will be calling, raising, or
folding, 6, £ and how many will still be in the hand after the flop.</p&gt;
<p&gt;lf you raise under the gun, other players may 6, £ see this as a signal
of a very strong hand and may decide to fold, so you may not get 6, £ any actio
n. The action you get is liable to be from players who also think they have a st
rong hand.</p&gt;
<p&gt;After 6, £ the flop, the under the gun player is still in an early posi-
tion but may act second or third if 6, £ either or both of the blinds are still
in the hand. The UTG player won't have as much information as 6, £ any playe
r that follows him in the action, but has more than the blinds.</p&gt;
<p&gt;Playing in the Under the Gun Position&lt;/p&gt;
<p&gt;Many 6,
                  £ players will adopt a tighter strategy when they are in the ea
rly positions, especially in the UTG position. You might decide 6, £ to only call
or raise value hands, and a narrower range of hands. However, the other players
will probably expect 6, £ tighter play from you in UTG position and will judge
their own play accordingly.</p&gt;
<p&gt;Some strategists say to always raise under 6, £ the gun rather than cal
I. If you're playing tight, it can make more sense to bet aggressively or si
mply fold 6, £ rather than calling and potentially allowing the big blind to lim
p in and benefit from a lucky flop.</p&gt;
<p&gt;lf you are 6, £ short-stacked, the UTG position can be an opportunity t
