Restricted WiFi networks are becoming more common, especially at school or work. But there is a simple hack to get unblocked games and apps for free with a VPN.

1 First, VPNs "switch out" your IP address and make you anonymous online, so you can access restricted content from anywhere. You can connect to a server in a different country, making it appear as if you are accessing the internet from that location.

2 Now you can download the VPN's app on your device.

3 Install and then log in to the application, as you should now be able to access your favorite online games without restriction!

How to Unblock Games on School Computer - a step-by-step guide: [blog ; vpn-privacy do unblock](#)
