It is always the best five cards that make a five card poker hand that determines the inner loser or split. Holdem is played with seven cards, and the two cards that are not part of the five card hand count for absolutely nothing in determining if a pot is lost or split. What is the "Top Five Cards" rule and how does it apply to split? It has factors such as the number of players in a hand, and where your seating position relative to the dealer.
