

zebet download apk

To convert from a probability to odds, divide the Probability by One minus

probability.

So if the probability is 10% (0.10), and the

odds are 1.1/0.9, then

0.111. To convert from odds to probability, divide

the numerator by the denominator.

What is the difference between the lives of people?

- FAQ 1466 paragraph

support ; faq: probability ; If you have a

0.05% chance of

getting a result on one out of every 2000 tries (1 in 2000) then

if I have a 0.05% chance for the result, how many tries will it take...&

the

probability of success is 0.05% (0.0005) then the number of tries is

1 / 0.0005 = 2000

tries.
